

TravellerAccounts

TravellerAccounts provides a totally integrated accounts module incorporating sales and purchase ledger functionality into Traveller or WebTraveller systems. TravellerAccounts is an accounting module that is simple to use and easy to understand.

Supplier Payments

- Eliminate the need for interfaces to third party applications and minimise data errors
- Supplier payment information is maintained in a real time environment
- All payments to suppliers are visible to your agents within the client file
- Consolidated ledger and journal posting is available into a range of accounting systems
- Cash forecast of payments to suppliers available
- Payment batch creation, save and retrieval facilities
- Inclusive creditors due reports
- Colour coded on-screen prompts make the system simple to follow

Business House Accounts

- View "Business House Invoices Due" at a glance
- Sort "Business House Invoices Due" in order of your preference to allow easy allocation of receipts
- Simple "Drill Down" to the underlying booking directly from the TravellerAccounts screen
- View aged debts and aged balances at a glance
- Print "Business House Invoices Due" reports with aged balances per account
- Print professional looking statements with optional logos, messages and corporate information
- Option to view paid transactions and those paid direct to operators

TravellerMIS

Traveller's management information system provides a complete MI reporting suite allowing you to run both agent and client facing reports in an instant.

TravellerMIS goes much further than a standard reports package, offering a flexible and dynamic reporting solution, scheduled report delivery via email and optional report branding.

The system supplies the reports required to analyse both agency and client trends and assess consultant performance. There is a vast range of reports including; Executive Summary Reports, Performance Reports, Sales and Earnings and Cost Saving Analysis as well as CO₂ emission data.

- Secure, yet accessible from any PC with a web connection
- Both agency and client facing
- Schedule reports to be delivered by email
- Include client and agency logos
- Bespoke report writing available
